## Objective

- Develop interactive websites that inspire and deliver a rich user experience.

## Software/Skills

- PHP, MySQL, XHTML, CSS, JavaScript, XML, ColdFusion, Ruby on Rails

## Employment

### **Rock River Star - Philadelphia, PA February 2010 - Present**

Developer

- Creating higher-education and non-profit websites using the Drupal content management framework.

### **WebLinc - Philadelphia, PA September 2008 - February 2010**

Developer

- Developed e-commerce websites using Adobe ColdFusion for high end clients. Also used Ruby on Rails in a team to help build an ebay/craigslist hybrid site.

### **Gyro Worldwide - Philadelphia, PA June 2007-August 2008**

Jr. Web Developer

- Used PHP, MySQL and Javascript to build fully functional dynamic websites and content management systems. Links to websites can be provided upon request.

### **Lockheed Martin Co. - Mt. Laurel, NJ - 2007**

Internship

- Used PHP and mySQL to create a backend for administrators for an in house website. The website was created to allow employees to register for training classes for specific government related training.

### **Stages of Imagination - Philadelphia, PA - 2006**

Non-Profit Project

- Created an interactive coloring book using Flash and XML for the non-profit company Stages of Imagination. This company composes children's musicals and the team created this coloring book to go along with the audio version of the musical

## **Clients**

- The following is a list of clients I have had the pleasure of working with at Gyro Worldwide and other freelance opportunities.
- Art in the Age of Mechanical Reproduction, Boyds Philadelphia, Floss Barber, Sailor Jerry, Steinski, Walrus Music, Adpricks, The Unusual Times.

## **Education**

### **The Art Institute of Philadelphia June 2007**

- Bachelor of Science: Multimedia & Web Design

### Honors

- Deans list - 2004 - 2005

### **Central High School June 2003**

- Bachelor of Arts
